

ACTION LEARNING

Power and Benefits of Action Learning

The planning cycle: from formulation to implementation

From **vision** to plan

Support to ministries of education
in preparing educational plans

1

Education Sector Analysis: analysing overall performance and capacities

2

Policy formulation: choosing policy priorities and key strategies

3

Programme design: translating policies into programmes

4

Plan costing and financing: estimating required resources

5

Monitoring and evaluation: measuring progress and achievements

From plan to **action**

Support to ministries of
education in educational plan
implementation

1

Learning lessons and improving practices through Monitoring and Evaluation frameworks

2

Promoting safety, resilience, and social cohesion by planning for crises and forced displacement

3

Securing fiscal predictability through linking plans and budgets

4

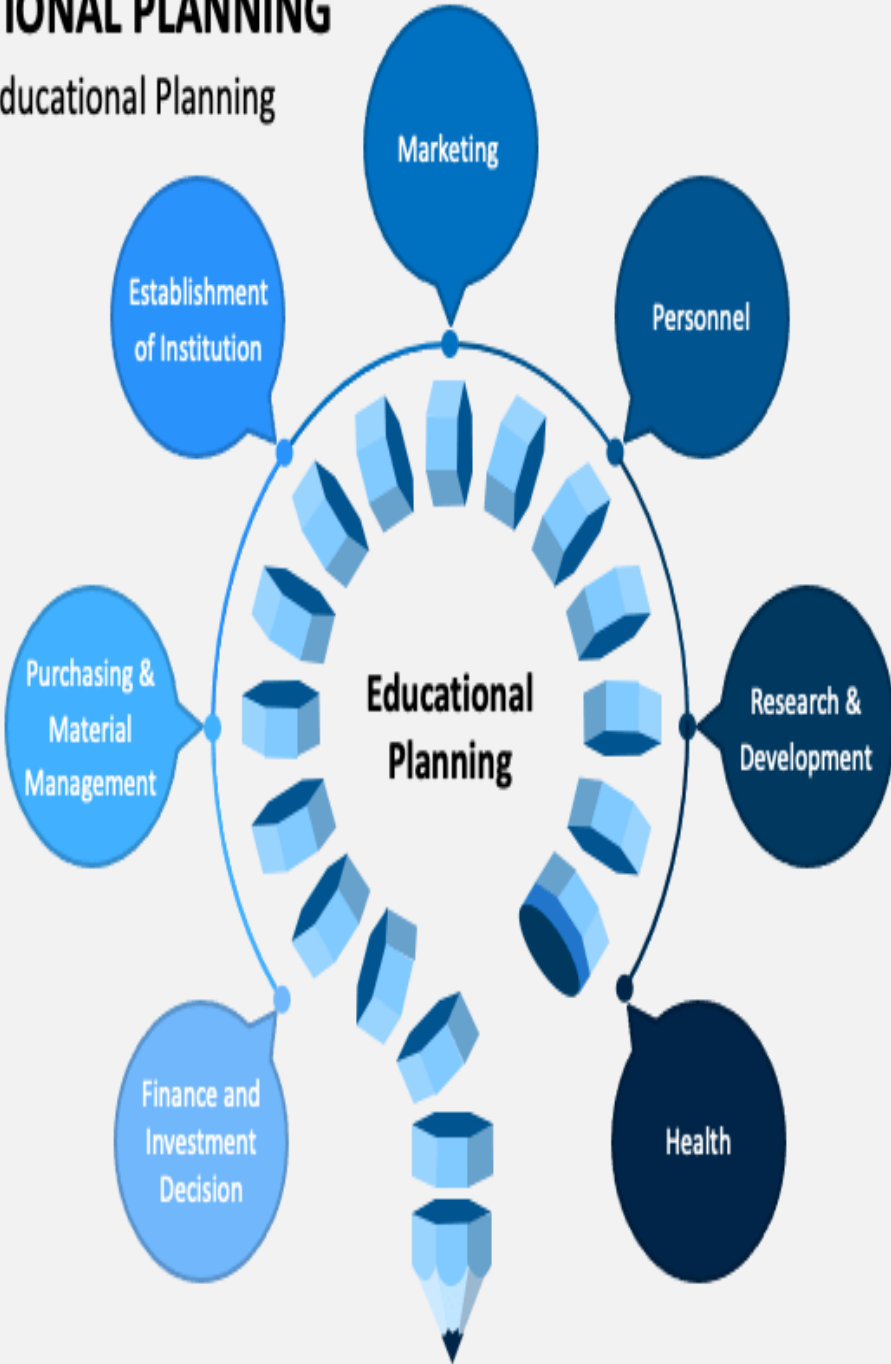

Creating effective educational administrations by overcoming capacity constraints

5

Reinforcing national training providers to boost capacities at the decentralized level

EDUCATIONAL PLANNING

Scope of Educational Planning

PRINCIPLE OF EDUCATION PLANNING
